ly laptop trying to restart itself sted by lenovoadmin - 06 Jan 2017 07:39	
rstly, it is important to understand what is happening when your laptop starts. You said that a blue creen is showing when you turn on the laptop. So, what message is displayed? Any description or formation that you can tell us? Sometimes these information are the key to solve instead of formatting e entire hd and reinstall all the operating system.	ηg
