What could be wrong with my Posted by Jenovoadmin - 06 Jan 2017 09:03	laptop	keyboard,	some	keys	do	not	work
Posted by lenovoadmin - 06 Jan 2017 09:03		•		•			

Your cable may be lose on the motherboard. Check Lenovo's website to see if they have an instruction for removing the keyboard and reinstalling it. If that doesn't work you may need to get a replacement keyboard.
