

My laptop yoga 900 WIFI issues

Posted by lenovoadmin - 06 Jan 2017 10:43

Good day,

The first thing I'd recommend is that you visit the driver listing: support.lenovo.com/us/en/products/laptops-and-tablets/yoga-series/yoga-900-13isk

and compare the newer releases of both the WiFi and TouchPad drivers with the versions installed on your PC.

If you're at earlier versions, the updates may improve things.
