Bluetooth & WiFi not working -my laptop Ler	novo 3000 Y410 Notebook
---	-------------------------

\_\_\_\_\_\_

Check if your wifi module is turned on by switching on a hardware switch on a border or back of your laptop.

- 1. Click once on right bottom corner on icon with two monitors.
- 2. Choose connect to network.
- 3. Choose one of access points
- 4. Enter password
